

Your Preferred Long-term Partner For Decarbonization-as-a-Service Solutions

Luminace sponsors accessible, reliable and renewable energy infrastructure to empower the zero-emissions future. We are one of the largest fully integrated providers of cutting-edge, turnkey clean-energy solutions in North America.

A Leading Decarbonization-as-a-Service Platform

Manage over 2,000 megawatts of operating and under-development distributed energy resources across 28 states, Washington D.C., Puerto Rico and Canada.

One-Stop-Shop For Turnkey Solutions

Finance, develop, own, operate and maintain renewable energy facilities that can be seamlessly integrated into your operations, at no upfront cost.

Unmatched Expertise And Experience

Strong operating and development capabilities coupled with deep financial resources makes us exceptionally well-equipped to meet your needs at the scale you desire.

Your Success Is Our Success

A strategic provider and long-term owner and operator of distributed resources with an enduring commitment to advancing your energy and sustainability goals.

Accessible, Reliable and Renewable Energy Infrastructure, Customized to Meet Your Needs

Solar Applications

- Carport Solar
- Rooftop Solar
- Ground-Mount Solar
- Community Solar & Other Off-site Solutions

Storage Applications

- Batteries
- Ice Banks
- Microgrids
- Back-up Generators
- Fuel Cells

Energy Efficiency Applications

- HVAC
- Heating and Cooling
- Lighting
- Control Systems

Sponsoring Accessible, Reliable And Renewable Energy Infrastructure

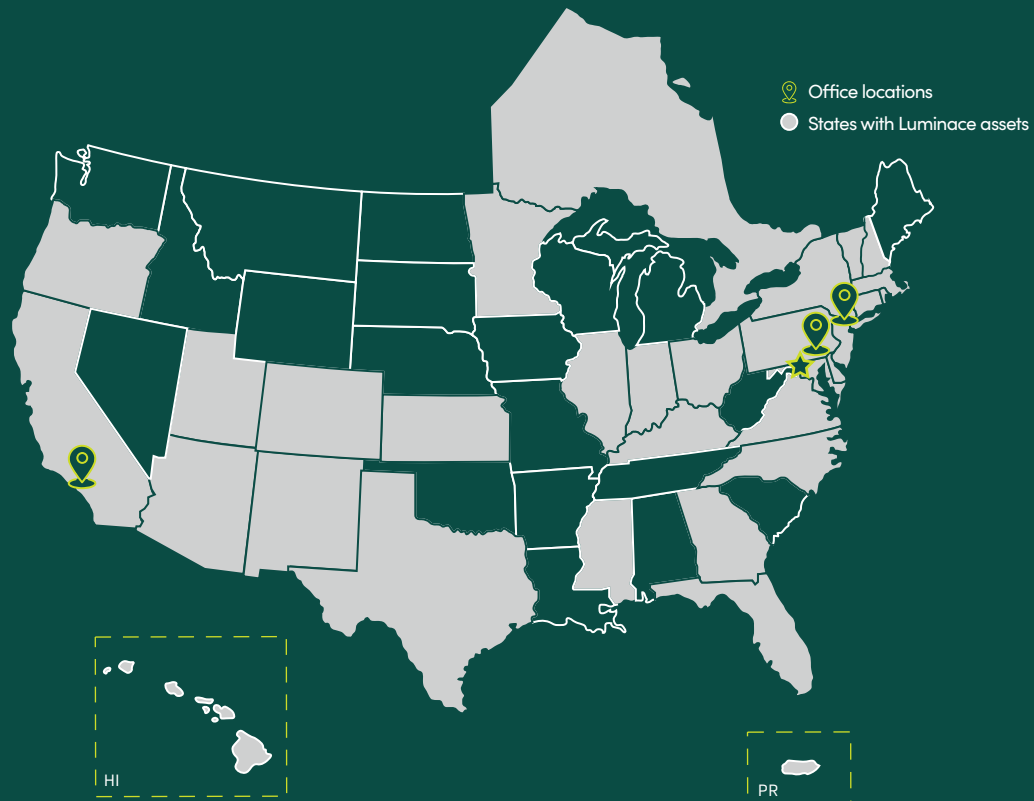

1,120 MW
Large-scale distributed
energy resource portfolio

400+ Customers
Diversified across commercial,
industrial, municipal, education,
utility, and hospital sectors

1,400+ Sites
Renewable facilities in 28 states,
D.C., Puerto Rico, and Canada

1.1 Million tCo2e
Metric tons of avoided carbon
emissions annually

Champion Sustainability

Meet long-term sustainability goals while demonstrating environmental stewardship to the community

Enjoy Turnkey Solutions

Take advantage of our hassle-free solutions, with Luminance financing, developing, owning, operating and maintaining the renewable energy facilities

Control Energy Costs

Lower your electricity bill right away while simultaneously reducing the power you draw from the grid

Boost Resiliency

Enhance reliability and power quality with Luminance's storage solutions, avoiding costly disruptions to your power service

Luminance is one of the largest fully integrated decarbonization-as-a-service providers in North America, sponsoring accessible, reliable and renewable energy infrastructure to empower the zero-emissions future. Luminance serves more than 400 customers in the educational, commercial, industrial, utility and municipal sectors and has over 1,100 megawatts of distributed energy resources spanning 28 states, Washington, D.C., Puerto Rico and Canada. Our offerings include on- and off-site solar, energy storage and energy efficiency upgrades and retrofits. Luminance is a Brookfield Renewable company. Brookfield Renewable operates one of the world's largest publicly traded, pure-play renewable power platforms.
